

## Lake Stumps Located.....

Through the efforts of LSA member Bob Ek, 25 stumps have been located and mapped with GPS co-ordinates. Bob has asked that this information be shared with all. (Besides this email, this will be permanently posted on the website.)

This information can be useful for fishermen with GPS devices and will be helpful to the LSA volunteers who mark the stumps as navigation hazards next spring.

The Board of Directors, on behalf of the members, wishes to extend a big THANK YOU to Bob for this service.
